DANZIG FIGHTS POLES ON PORT CONCESSIONS

(By Associated Press)

DANZIG, Jan. 18.—There is a lively dispute between the business interests of this city and the Polish government over the granting of shipping facilities here to the Poles as provided for in the treaty of Versailles.

General Haking, high commissioner of the league of nations, who has been endeavoring to bring the Polish and Danzig interests to an agreement on the question of waterfront privileges, may soon refer the whole matter to the council of ambassadors for settlement.

The task of arranging the division of port facilities between the Poles and Danzig has been placed in the hands of a harbor board composed of an equal number of Poles and Danzig residents, with Colonel Reigner, a Swiss, as chairman.

All the docks and waterfront property formerly controlled by the German imperial government are to pass, by the treaty of Versailles, either to the free city of Danzig or to the Polish state. The harbor board was created to make the division.

Commercial interests of Danzig contend that Poland has been demanding more than her share while the Poles aver that the Danzig interests are unfair and endeavoring to prevent Poland from obtaining full access to Danzig's shipping facilities as intended by the treaty.

The Poles contend that they are handicapped because most of the piers and warehouses are owned or controlled by Danzig companies or individuals whose charges are beyond the means of the Poles owing to the unbalanced rate of exchange.

MOONSHINE IS CHEAP RESULT OF LOW SUGAR

(By Associated Press)

TAMPA, Fla., Jan. 18.—The low market price for cane syrup and the over-production of sugar cane and sorghum is responsible for a boom in the moonshine liquor industry in several sections of Florida, according to A. L. Allen, federal prohibition director for this state.

"Last year our farm crops were small, except the cane crop, which was larger than usual," said Mr. Allen. "One year ago this month cane syrup was selling at \$1.50 a gallon. This year, with double the crop, people in west Florida have told me they are offered only 35 and 40 cents a gallon for their syrup."

"Many of these people, in those circumstances have found the parting of the ways and have sold their syrup to a bootlegger neighbor or have used it themselves in making moonshine. Only three gallons of syrup are necessary to make a quart of liquor. The market value of the syrup is \$1.05 to \$1.20 while the quart of moonshine will sell for \$3 or \$6."

REWARD

Will pay \$250 for the arrest and conviction of one or all the parties who broke into the shaft house of the Apex Mines company and took a 30 h. p. motor and starting box. Will pay a further reward of \$100 for the return of the motor and starting box. A further reward of \$100 will be paid for information leading to the arrest and conviction of one or all the guilty parties.

MEALY BUG IS TO BE BUGGED BY LADY BUG

(By Associated Press)

SAN BERNARDINO, Cal., Jan. 18.—The raising of millions of cryptolimus montivorus, more commonly known as crypts, or Australian lady bugs, is the remedy suggested by J. P. Coy, horticultural inspector of San Bernardino county, to combat the ravages of the mealy bug, an orchard pest said to be common in southern California.

According to Mr. Coy, the lady bug is the deadly enemy of the mealy bug. He proposes to raise the lady bugs in the county insectary. Then in the spring and summer of each year, under his plan, the lady bugs would be distributed in groves infested by the mealy bug.

Mr. Coy said this means of fighting the mealy bug pest was not a new one, it having been tried prior to this year in several counties in the southern part of the state. He declared, however, that the campaign against the mealy bug should be intensified by the propagation and distribution of more lady bugs.

PUNCH CARDS MAY GOVERN WILD DRIVERS

(By Associated Press)

JACKSONVILLE, Fla., Jan. 18.—The motorist who persisted in violating the local traffic rules would suffer more than he who broke them infrequently if a novel plan invented by the police here to curb the "don't care" driver is put into effect.

Violators would be rated by means of punch marks on registration cards which motorists in Florida are required to carry with them. When a motorist aroused the ire of a traffic officer through failure to obey signals or by cutting the corners, the officer would demand the driver's registration card, and for each violation of the rules would punch it. Every motorist thus would carry his record with him and when haled into court the judge would examine the card and ascertain the number of times he had violated the law and been released with a reprimand from an officer. The hardened offender would get the limit while the driver with a good record would be dealt with lightly.

HETCH-HETCHY POWER PLANT BIG PROJECT

(By Associated Press)

SAN FRANCISCO, Cal., Jan. 18.—Work on the bay division of the Hetch-Hetchy project, the final link in the great system which will furnish water to all the San Francisco bay cities sufficient to provide for 4,000,000 people, will be started here soon. City Engineer M. M. O'Shaughnessy of this city recently announced. An appropriation of \$50,000 is now available for this work.

The entire project, including the Hetch-Hetchy reservoir and dam in the Sierras—said to be the largest dam in California—together with the Mokelumne Creek power plant and the 156 miles of tunneling and aqueducts to San Francisco, will be completed in 1923, it is believed.

FIRST MOTORSHIP OF U. S. VISITS CHINA

(By Associated Press)

SHANGHAI, Jan. 18.—The ship William Penn, said to be the first motorship owned by the United States government and the first vessel of this type to come to China, after visiting Shanghai, is proceeding to London by way of the Suez. It is equipped with a power plant, canal. The William Penn is 455 feet 6 inches long, 60 feet beam and is equipped with a power plant of 300 horsepower that gave the ship an average speed on its voyage to the far east from New York of 11.1 knots an hour.

ITALIANS WILL ELECTRIFY ALL THEIR RWYS.

(By Associated Press)

ROME, Jan. 18.—The fabulous prices that Italy had to pay for coal during the war and since, has decided her to defer no longer the use of the electric power provided by her magnificent water supply. The government proposes to at once begin the electrification of 2500 miles of trunk railroad lines and over 6000 miles of tracks.

The whole railway system of the industrial provinces of Piedmont and Liguria will be electrified, and 700 miles of tracks are already in working order. Later the lines which carry Italy's trade with central Europe and those of the newly redeemed provinces, down to Fiume, will all come into the system.

Visit Butler's Son Drink Parlor. We serve soft drinks, candies, cigars, tobacco, fruit and tamales. Located at intersection of Main and Florence avenue, next door to Chistovich & Reko's old stand.
